

The image displays a horizontal bar chart with 100 categories. The x-axis is labeled with integers from 1 to 100. The y-axis is labeled from 0 to 100. Each bar's height corresponds to its value. A color gradient is used where darker shades represent higher values and lighter shades represent lower values. Category 1 has the highest value (around 85), while categories 100 through 99 have the lowest values (near 0).
